

ATIK SHAHRIA OPU

Competitive Programmer

📍 Dhaka, Bangladesh

✉ atikshariaropu@gmail.com | ☎ +88 01645970035 | [in atikshahriaopu](https://www.linkedin.com/in/atikshahriaopu) | [atikshahriaopu](https://github.com/atikshahriaopu)

EDUCATION

BSc in Computer Science & Engineering

University of Information Technology & Sciences, Bangladesh

Expected Graduation: 2026

PROBLEM SOLVING ACTIVITIES

- Codeforces: [Shahriar.Opu](#), Highest Rating: 1077, Solved 650+ problems.
- Solved 1000+ algorithmic problems across multiple platforms (Codeforces, LeetCode, VJudge).
- Participated in 60+ online programming contests.

I have solved over **1000+** data structure and algorithmic problems and participated in over 100+ online coding contests. [\[statistics\]](#)

ACHIEVEMENTS & EXPERIENCES

- ICPC Dhaka Regional Preliminary 2023. [UITS_noob3Programmers](#)
- ICPC Dhaka Regional Preliminary 2024. [UITS_AIMERS](#)
- UITS February 25, ranked **6th** out of **20** teams. [UITS_AIMERS](#)
- UITS Intra-University Programming Contest Spring 2025, ranked **6th** out of **60+** teams. [UITS_AIMERS](#)

Participated in 20+ offline programming contests at UITS, strengthening problem-solving and time management under pressure.

PROJECTS

- **PetPals - Animal Information Web Application** [GitHub](#)
 - A front-end project displaying API-based animal info with authentication and animations.
 - **Tech:** HTML, CSS, JavaScript
- **UITS ACI Student Chapter Website** [aciuits.netlify.app](#)
 - Developed a comprehensive web platform for the UITS ACI (American Concrete Institute) Student Chapter - a professional civil engineering community website that serves as a central hub for student members, faculty advisors, and industry partners.
 - **Tech:** React.js, Firebase, Sanity CMS, Tailwind CSS.

SKILLS

Domain: Competitive Programming, Data Structures, Algorithms, Object Oriented Programming

Languages: C, C++, JavaScript

Frameworks: Node.js

Database: MongoDB

EXTRA CURRICULAR

Mentorship: Mentored junior students in Competitive Programming by organizing problem-solving sessions and teaching algorithms to improve their logical reasoning and contest performance.
